PRESS RELEASE

Dated: 29/03/2023

The Department of Police Administration organized a poster cum exhibition competition today on “Cyber Security and Deep Fake Technology” as a build-up activity towards Y20. This poster competition was organized on the theme “Cyber Security and Deep Fake Technology” to create awareness about cyber threats, cyber bullying, and loss of privacy. Through this event, we also tried to highlight the distortion of reality and identity through fake news and fictional photos created by deep fake technology.

More than 20 students from various departments and some faculty participated in today’s event, making the competition constructive and fruitful. The jury consisting of Dr. Sonam Angmo, Dr. Regzen Disket, and Dr. Zahoor Ahmed, after a careful analysis of the poster and their relevance to the theme, announced Ms. Padma Lhazes (Department of Zoology) as the first, Chinba Zangmo (Department of Political Science) as the second and Mr. Dorjey Namgyal (Department of History) as the third prize winners. Dr. Sonam Joldan, Dean Research and the I/C Co-ordinator of the Department of Police Administration, distributed the prizes. The prize distribution was accompanied by the winner discussing their posters.
